

INDIANA ACADEMY OF  
FAMILY PHYSICIANS

75th IAFP Annual Convention  
July 18-21, 2024  
French Lick Resort

## Preliminary Agenda

### CME PROGRAM DESIGNED FOR FAMILY PHYSICIANS

Earn up to 18.0 Prescribed AAFP CME credits plus an additional 8 Prescribed AAFP CME credits per KSA Study Group at a meeting planned by family physicians to meet the needs of family physicians. Our medical education program is based specifically on previous attendee evaluations and member needs assessments. Four ABFM KSA Study Groups will be offered as optional sessions (two concurrent KSAs on Thursday afternoon; two concurrent KSAs on Sunday morning), each offering 8 AAFP Prescribed CME credits.

### REGISTRATION PRICING

**Please note: registration fees will increase by \$100 on June 17**

|  | AAFP Member  | AAFP Non-Member |
|--|--------------|-----------------|
| <b>Full Conference Registration Fee</b>  | <b>\$545</b> | <b>\$645</b>    |
| Includes: One KSA Study Group on Thursday; all General CME Sessions on Thursday, Friday, and Saturday; one KSA Study Group or FMOB Breakout on Sunday; PDF of syllabus materials. IAFP members may also attend Friday and Saturday lunch sessions of Congress of Delegates.<br><b>BONUS: 4 tickets to Saturday's Trivia Night are also included!</b> |              |                 |
| <b>Thursday</b>  | <b>\$220</b> | <b>\$320</b>    |
| <b>Friday</b>  | <b>\$220</b> | <b>\$320</b>    |
| <b>Saturday</b>  | <b>\$220</b> | <b>\$320</b>    |
| <b>Sunday (KSA Only)</b>   | <b>\$150</b> | <b>\$300</b>    |
| Please Note: Academy Business Meetings are open to all IAFP members regardless of attendance at CME sessions - you may register free of charge using the registration form on our website.   |              |                 |
| <b>Electronic Syllabus</b>   | <b>Free</b>  | <b>Free</b>     |
| <b>Printed Syllabus</b>  | <b>\$50</b>  | <b>\$50</b>     |
| <b>Saturday evening Trivia Night (Additional Ticket)</b>   | <b>\$25</b>  | <b>\$25</b>     |
| <b>Note: 4 tickets are included with full conference registration (attendees aged 2+ require a ticket)</b>   |              |                 |

### AAFP Prescribed CME Credits By Day

Assuming all CME sessions are attended:

|                 |   |
|-----------------|---|
| <b>Thursday</b> | <b>3.0 credits for CME; 8.0 credits for KSA Study Group</b> |
| <b>Friday</b>   | <b>6.5 credits for CME</b>                                  |
| <b>Saturday</b> | <b>6.5 credits for CME</b>                                  |
| <b>Sunday</b>   | <b>2.0 credits for CME; 8.0 credits for KSA Study Group</b> |

Application for CME credit will be filed with the American Academy of Family Physicians. Determination of credit is pending. Updated credit certificates will be available on site.

# Preliminary Agenda

*This agenda is subject to change.*

*A small number of CME activities and speakers are being confirmed; this agenda will be updated as additional topics are available.*

## Thursday, July 18

9:00am

### ***Opening of IAFP Annual Scientific Assembly and Call for Late Resolutions***

9:05am - 12:00pm

### ***General CME Sessions - Focus on Opioid Use***

9:05 AM - 10:00 AM

#### ***Before Addiction: Understanding Trauma*** ***- Emily Zarse, MD***

Upon completion of this activity, the participant should be able to:

- Describe the connection between trauma and substance abuse
- Review vulnerabilities and risk factors for trauma and addiction
- Recognize how trauma informed care can better assist patients into recovery

10:00 AM - 10:15 AM Break

10:15 AM - 11:15 AM

#### ***Medication Assisted Treatment for Opioid Use Disorders*** ***- Emily Zarse, MD***

Upon completion of this activity, the participant should be able to:

- Discuss how we got to our current crisis of opioid use
- Appreciate the extent of the crisis
- Review the difference between dependence and addiction
- Review the diagnosis of Substance Use Disorder (SUD)
- Describe SUD as a chronic medical condition
- Discuss brain changes associated with SUD
- Differentiate between different types of Medication Assisted Treatment (MAT) for SUD, particularly Opioid Use Disorder

**Emily Zarse, MD**, serves as the program director of the Addiction Medicine Fellowship Faculty at Community Health Network in Indianapolis. She attended medical school and completed her psychiatry residency at Indiana University School of Medicine in Indianapolis, IN. She also completed a fellowship in Addiction Psychiatry at IUSM.

Dr. Zarse is originally from Bloomington, Indiana. She is board certified in addiction medicine, addiction psychiatry and psychiatry. After her fellowship, Dr. Zarse was the area chief of addiction services for a community mental health center in Indianapolis before coming to Community Health Network in 2019.

She has experience educating medical students, residents, and addiction fellows. She is a buprenorphine waiver trainer through both the American Academy of Addiction Psychiatry and American Psychiatric Association. Dr. Zarse helped establish an emergency medicine based peer recovery program for opioid overdose survivors at Eskenazi Health. She also worked to expand access to buprenorphine within primary care services. She enjoys teaching, expanding access to care for the underserved, and coming up with innovative ways to meet the needs of the community.

When not working, Dr. Zarse enjoys spending time with her husband and their two young daughters.

11:15 AM - 12:00 PM

***The Indiana Medical Licensing Board Opioid Prescribing Rule and Other Indiana Opioid Prescribing Laws: What You Need to Do to Comply***

**- Richard Feldman, MD, FAAFP**

**Richard Feldman, MD**, is program director emeritus at Franciscan Health Family Medicine Residency Program in Indianapolis. Dr. Feldman graduated from Indiana University School of Medicine and has an interest in vaccines and dermatology. Dr. Feldman served as Franciscan Health Family Medicine Residency's program director for 36 years and Indiana's Commissioner of Health from 1997 to 2001. He continues his work in public health and healthcare policy as an editorial columnist for several Indiana newspapers including the Indianapolis Star.

12:00pm - 5:30pm Exhibits Open

12:00pm - 2:00pm

***CME Lunch***

***Moving the Needle in Older Adults: A Provider Townhall to Enhance Vaccine Uptake***

**Learning Objectives:**

Upon completion of this activity, the participant should be able to:

- Accurately assess the health burden of vaccine-preventable diseases, including RSV, pneumococcal disease, and herpes zoster (shingles) in older adults, and its impact on health disparities and healthcare systems.
- Employ the latest clinical data, encompassing safety profiles, efficacy rates, and administration schedules for new and emerging vaccines in accordance with guideline recommendations
- Correctly apply evidence-based approaches to address patient-level challenges, barriers, and perceptions related to vaccines in older adults, especially among individuals from historically marginalized communities, to support vaccine uptake and completion.

12:30pm - 1:30pm Past Presidents' Lunch

**2:00pm - 5:00pm KSA Study Group: Pain Medicine**

***(Concurrent Session)***

- Complete the 60-question Knowledge Self-Assessment (KSA) with other family physicians in a fast paced, group discussion format facilitated by a family physician experienced with the topic.
- Facilitator will guide you through all 60 questions of the Knowledge Self-Assessment (KSA) module, part of the ABFM's certification process.
- Engage in discussion and debate to help you decide on the correct answer as a group.
- Benefit from automatic reporting of your answers to the ABFM – your account will show you've successfully completed this KSA.
- Earn 8 AAFP Prescribed CME credits and 10 ABFM Certification Points following successful completion of this session.
- KSA Study Group registration is limited to enable group discussion - please register as early as possible!

**2:00pm - 5:00pm KSA Study Group:**

***Musculoskeletal Medicine (Concurrent Session)***

**- Betty Johnson, DO**

- Complete the 60-question Knowledge Self-Assessment (KSA) with other family physicians in a fast paced, group discussion format facilitated by a family physician experienced with the topic.
- Facilitator will guide you through all 60 questions of the Knowledge Self-Assessment (KSA) module, part of the ABFM's certification process.
- Engage in discussion and debate to help you decide on the correct answer as a group.
- Benefit from automatic reporting of your answers to the ABFM – your account will show you've successfully completed this KSA.
- Earn 8 AAFP Prescribed CME credits and 10 ABFM Certification Points following successful completion of this session.
- KSA Study Group registration is limited to enable group discussion - please register as early as possible!

2:00pm - 3:00pm Foundation Board of Trustees Meeting

3:30pm - 5:00pm Board of Directors Meeting

6:00pm - 7:00pm Board Reception (invitation only)

7:00pm - 9:00pm Board Dinner (invitation only)

---

## **Friday, July 19**

8:30am - 5:00pm Exhibits Open

9:00am - 12:00pm ***Essential Evidence CME Program***

This popular format, taught by nationally-recognized faculty (see following page for bios), will review and analyze recent findings from pertinent clinical research with a focus on immediate implications for your daily practice. This is a fun and engaging CME program with no clinical bias and a focus on practical application. The faculty will provide an engaging, rapid-fire review of the most important research publications of the past two years. They will present and critically appraise new research evidence and meta-analyses in 30-minute blasts that will either change your practice or confirm that your current approaches are supported by solid evidence from randomized trials and other high quality studies. Each section ends with a bottom-line summary of key take home points.

### ***Friday morning's topics:***

#### ***Dementia***

At the end of this session, participants will be able to discuss recent research on:

- Older drugs (i.e., cholinesterase inhibitors) for treating patients with dementia
- Newer drugs (i.e., monoclonal antibodies) for treating patients with dementia
- Approaches to managing troubling behaviors

#### ***Care of the Patient With Cancer***

At the end of this session, participants will be able to discuss recent research on:

- Approaches to managing symptoms in patients with cancer
- Communication issues
- Continuity of care and care collaboration

#### ***Musculoskeletal Update***

At the end of this session, participants will be able to discuss recent research on:

- Managing common acute injuries
- Managing patients with osteoarthritis
- Using orthobiologics

#### ***Screening and Prevention***

At the end of this session, participants will be able to:

- Describe the pros and cons of screening for colorectal cancer starting at age 45 years
- Understand the best approach to screening for cervical cancer
- Justify not screening for atrial fibrillation, COPD, diabetes, sleep apnea, and eating disorder

## ***Acute Respiratory Infections***

At the end of this session, participants will be able to:

- Apply delayed prescriptions to reduce antibiotic use
- List the best antibiotics for acute sinusitis, pharyngitis and pneumonia
- Understand the potential benefits of RSV vaccine for pregnant women, their infants, and the elderly

### ***Essential Evidence Faculty:***

**Henry C. Barry, MD, MS** is a professor of Family Medicine and Senior Associate Dean for Faculty Affairs and Development in the College of Human Medicine at Michigan State University. After graduating from the University of Maryland, he completed his family medicine residency at St. Lawrence Hospital in Lansing, Michigan and completed a master's in Clinical Research Design and Statistical Analysis at the University of Michigan School of Public Health. For over 20 years, as one of the original "POETs," he and colleagues have generated nearly 6000 POEMs – Patient Oriented Evidence that Matters – short critical summaries of original research on topics relevant to primary care physicians.

**Mark H. Ebell MD, MS** is a Professor in the College of Public Health at The University of Georgia. Dr. Ebell is Deputy Editor of American Family Physician and Editor-in-Chief of Essential Evidence. He is a graduate of the University of Michigan School of Medicine, a former RWJ Generalist Physician Faculty Scholar, and is former editor of the Journal of Family Practice. Dr. Ebell is author of 9 books and over 500 peer reviewed articles. From 2012 to 2016 he was a member of the USPSTF, and in 2019 he was a Fulbright Scholar at the Royal College of Surgeons in Ireland.

**Gary Ferenchick, MD, MS** is Professor of Medicine at Michigan State University College of Human Medicine, where he practices general internal medicine and is deeply involved in MSU-CHM major curriculum renovation. He earned his master's degree in human nutrition and medical degree from Michigan State University and completed his residency training in internal medicine at Michigan State University College of Human Medicine, where he has been a faculty member for over 25 year. Dr. Ferenchick is a Past-President of the Clerkship Directors in Internal Medicine. His research interest is the interface between medical education and information technology.

12:00pm - 1:30pm

### ***Lunch & Congress of Delegates - First Session***

Our Congress of Delegates gives each member a chance to take an active role in IAFP business. All members are invited and encouraged to attend. Every member is a delegate, and every delegate has a voice and a vote. The Congress considers resolutions submitted by members on hot topics such as legislative issues and urgent educational needs.

1:30pm - 3:00pm

### ***Town Hall Meeting: The State Of Health In Indiana - Lindsay Weaver, MD, FACEP***

Hear the latest developments on the many pressing issues that the IDOH is focusing on.

As chief medical officer for the Indiana Department of Health (IDOH), **Dr. Lindsay Weaver** provides clinical input and support to all agency divisions. She joined IDOH as chief medical officer Feb. 3, 2020. She immediately jumped into the role, helping to lead the state's pandemic response by spearheading the development of the statewide lab testing network to expand COVID-19 testing capacity in Indiana. Dr. Weaver also led the statewide distribution of COVID-19 vaccines and therapeutics.

Dr. Weaver is also an assistant professor of clinical emergency medicine at the Indiana University School of Medicine and continues to practice emergency medicine at Methodist Hospital in Indianapolis. She is board certified in both emergency medicine and hospice and palliative care medicine.

She earned her undergraduate degree in biology at the University of Kentucky and graduated from the University of Louisville School of Medicine. She received residency training in emergency medicine and fellowship training in hospice and palliative medicine at Indiana University School of Medicine, and she completed a fellowship in ethics at the Charles Warren Fairbanks Center for Medical Ethics at Indiana University Health.

She also chairs the Indiana Commission for Women.

Dr. Weaver and her husband have five daughters.

3:00pm - 5:30pm

## ***Essential Evidence CME Program, Cont.***

### ***Friday afternoon's topics:***

#### ***Evaluating the Patient with Chest Pain***

At the end of this session, participants will be able to:

- Describe how to manage a patient with acute chest pain in the outpatient setting, based on ACC/AHA guidelines
- Use the HEAR score (and HET and HEART scores) in evaluating the likelihood that a patient with chest pain has an acute coronary syndrome
- Describe the role of CT angiography in the evaluation of the patient with acute chest pain

#### ***Atrial fibrillation/anticoagulation***

At the end of this session, participants will be able to:

- Discuss recent research on screening for atrial fibrillation
- Use decision tools to guide the safer use of DOACs
- Discuss the recently updated guidelines from the ACC/AHA

#### ***Coronary Artery Disease/Lipids***

At the end of this session, participants will be able to:

- Discuss recent research on managing patients with coronary artery disease
- Discuss recent research on managing hyperlipidemia
- Discuss the recently updated guidelines from the ACC/AHA

#### ***Type 2 Diabetes***

At the end of this session, participants will be able to:

- Review changes to the recent ADA guidelines for T2D pharmacologic treatment

- Discuss the expanding recommendations for SGLT2 inhibitors and GLP-1 receptor agonists
- Discuss recent research on the effects of continuous glucose monitoring

5:30pm - 6:30pm      Reference Committee #1

6:30pm - 7:30pm      Reference Committee #2

7:00pm - 9:00pm      All Member Reception

---

**Saturday, July 20**

9:00am - 12:00pm    **General CME Sessions**

***Cases in the Community: Optimizing Treatment and Considering Weight Management as a Primary Goal in People with Type 2 Diabetes***

***- Javier Morales, MD, FACP, FACE;  
Thomas A. Kintanar, MD, FAAFP***

**PROGRAM DESCRIPTION:**

Type 2 diabetes mellitus (T2DM) is a progressive disease that is largely preventable and entirely treatable. To improve long-term health outcomes, timely intensification of therapy is a foundational principle of contemporary management of people with type 2 diabetes mellitus (T2DM). Weight loss can significantly improve outcomes, and current guidelines recommend people with T2DM achieve and maintain weight loss to reduce the risk of serious complications. How can healthcare professionals effectively intensify treatment and communicate the significance of modest weight loss to people with T2DM and overweight/obesity?

This PeerView workshop, held during the annual American Academy of Family Physicians (AAFP) state chapter meetings, will equip healthcare professionals with tools, skills, and techniques to employ in community settings for people with T2DM and overweight/obesity. This meeting is an opportunity to interact directly with experts and peers to discuss your patient case questions. Come prepared with a care scenario and learn more about timely intensification of treatment and how to encourage personal success through shared decision-making. You'll leave this session feeling confident and energized with a new approach to patient care.

**LEARNING OBJECTIVES:**

**Upon completion of this activity, the participant should be able to:**

- Apply current evidence-based guideline recommendations that prioritize weight loss as a treatment target in PwT2DM
- Intensify treatment in a timely manner consistent with current guideline recommendations and clinical evidence to help PwT2DM achieve personalized glycemic and weight loss goals
- Utilize shared decision-making to develop individualized management plans for PwT2DM and overweight/obesity that considers personal preferences, needs, and goals

**Javier Morales, MD, FACP, FACE**, is Associate Professor of Medicine at the Donald Barbara Zucker School of Medicine at Hofstra/Northwell and Vice President at Advanced Internal Medicine Group.

He earned his medical degree at the University of Medicine and Dentistry New Jersey Medical School in Newark. Dr. Morales completed his residency in Internal Medicine at Memorial Sloan Kettering Cancer Center in New York, New York, and North Shore University Hospital in Manhasset, New York, where he served as Chief Medical Resident from 1998-1999.

A Diplomate of the American Board of Internal Medicine, Dr. Morales works to effectively deliver quality primary care focusing on General Internal Medicine, type 2 diabetes, and Obesity Medicine and is active in clinical research, having served as investigator on several key clinical trials. He has published numerous articles in major peer-reviewed journals and holds editorial positions on several medical journals, including Diabetes, Obesity and Metabolism, Endocrine Practice, and Postgraduate Medicine. Noted for his expertise in diabetes, obesity, and metabolic diseases, he is a frequent presenter at many national and international continuing medical education forums.

Committed to the education of fellow health care professionals and students, he is involved in the training of medical residents at North Shore University Hospital and Winthrop University Hospital, nurse practitioners at Malloy College of Nursing and Long Island University School of Nursing, and physicians assistants at the New York College of Osteopathic Medicine.

He is an avid musician and recognized percussionist, and is fluent in Spanish, Italian, and Portuguese. A member of the American Medical Association, the American College of Physicians, the American Association of Clinical Endocrinologists, the American Academy of Family Physicians, National Hispanic Medical Association, he is also a fellow of the American College of Endocrinology and the Interamerican College of Physicians and Surgeons.

**Thomas A. Kintanar, MD, FAAFP**, is a family medicine physician who has practiced at Lutheran Health Physicians in Fort Wayne, IN, since November 2010. Dr. Kintanar provides full-scope family medicine services, including pediatrics and obstetrics.

Dr. Kintanar attended medical school at Southwestern University Matias H. Aznar Memorial College of Medicine, Cebu City, Philippines, and completed his residency in Family Medicine at Fort Wayne Medical Education Program.

He is board certified by the American Board of Family Medicine. An active Academy leader for many years, Dr. Kintanar is a past board member of the American Academy of Family Physicians (from 2004 - 2007), and is also a past president of the Indiana Academy of Family Physicians. Dr. Kintanar is the chair of the IAFP's Commission on Education.

***Elevating Patient Care: Early Detection and Evidence-based Pharmacotherapy for Postpartum Depression in Primary Care - Barbara P. Yawn, MD, MSc, MSPH, FAAFP***

**Program Description**

This live, 1-hour educational program seeks to improve primary care clinicians' diagnosis and treatment of women with PPD by addressing practice gaps in areas such as prevalence, disease burden, screening, treatment selection, patient counseling, and medication safety.

Postpartum depression (PPD) is a type of depressive disorder that affects million of people each year, with 10% to 15% of women experiencing PPD in the 6 weeks after giving birth and possibly one-quarter or more over the 12 months after giving birth. In fact, PPD is the most common complication in the postpartum period, affecting the mother, the newborn, and other family members. The negative impact of PPD on the mother's emotional health and daily functioning, interpersonal relationships, and mother-infant bonding is of key importance requiring effective management.

### Learning Objectives

- Demonstrate effective screening techniques for identifying depression in pregnant and postpartum women, utilizing validated measures in a live meeting setting.
- Engage in interactive discussions on tailoring evidence-based pharmacotherapy for patients with postpartum depression (PPD) during live sessions.
- Practice collaborative approaches with patients experiencing PPD to facilitate the initiation and adjustment of antidepressant therapy to attain treatment objectives within a live meeting environment.
- Evaluate the safety and effectiveness of medications prescribed for PPD in a dynamic, real-time context.

**Barbara P. Yawn, MD, MSc, MSPH, FAAFP**, is the Director of Research at the Olmsted Medical Center, a 140 clinician practice based in Rochester, Minnesota, as well as Co-Principal Investigator of the Rochester Epidemiology Project. Since 2011, Dr Barbara Yawn has been the epidemiology section editor at Mayo Clinic Proceedings.

Barbara P. Yawn, MD, MSc, MSPH, is a native of Kansas City, Missouri. She graduated with a degree in physics from the Massachusetts Institute of Technology in 1969, attending medical school at the University of Missouri and graduating in 1973. From 1973-1976, she was a resident in family medicine at the University of Minnesota, where she also completed a master's degree in public health. After completing residency, Dr Yawn and her husband, Roy Yawn, MD, MBA, and young son moved to Worthington, Minnesota, where she was a full-time rural family physician for 12 years, providing birth-to-death care and delivering more than 2,000 babies. In 1988, she became a Bush Medical Fellow, completing a master's degree in statistics and clinic research design at the University of Michigan in 1990. Upon completion, Dr Yawn moved with her family to Rochester, Minnesota, where she founded a research department at the Olmsted Medical Center, becoming Director of Research there in 1991 while also working as senior research fellow at the University of Minnesota's Rural Health Research Center. She enjoys appointments as an Adjunct Professor at the University of South Dakota and University of Minnesota Schools of Medicine.

Dr Yawn's research interests include early identification of disease (screening) and implementation work in primary care practices. She has received several grants from the National Institutes of Health (NIH), the Agency for Healthcare Research & Quality (AHRQ), and the Centers for Disease Control and Prevention (CDC) in areas including women and cardiovascular disease, postpartum depression, asthma, chronic obstructive pulmonary disease, and herpes zoster. She has published more than 300 peer reviewed publications. She was a founding Editorial Board member for the Primary Care Respiratory Journal, Respiratory Medicine, and founding chief editor for Respiratory Medicine Case Reports. She serves on multiple other Editorial Boards. She has been a member of seven national or international guideline development committees, including the NIH sponsored asthma guidelines, the food allergy guidelines, traumatic brain injury guidelines, the von Willebrand disease guidelines, and most recently co-chairing the sickle cell disease guidelines released in September 2014. She served as a member of the US Preventive

Services Task Force from 2006-2010 and served continuously on multiple AHRQ, NIH, and CDC study sections from 1998 through 2013.

Dr Yawn's academic work has focused on continuing education for practicing family physicians and exploration of new methods to involve practicing physicians in large pragmatic clinic trials. She spends spare time with her husband, Dr Roy Yawn, retired president of the Olmsted Medical Center, her sons, Dr Peter and electrical engineer Nathan, daughter-in-law, Dr Mayen, and adorable grandsons, Rhys and Liam. She enjoys travel, hiking, and reading a wide range of fiction and non-fiction books in paper as well as electronic formats.

12:00pm - 1:30pm

### ***Lunch & Congress of Delegates - Second Session***

Our Congress of Delegates gives each member a chance to take an active role in IAFP business. All members are invited and encouraged to attend. Every member is a delegate, and every delegate has a voice and a vote. The Congress considers resolutions submitted by members on hot topics such as legislative issues and urgent educational needs.

1:30pm - 2:30pm

Board of Directors Meeting

1:30pm - 5:30pm

### ***General CME Sessions***

#### ***Staying in the Solution:***

#### ***How Do We Implement Evidence in Obesity Care?***

***- Donna H. Ryan, MD***

Upon successful completion of this lecture, the attendee will be able to:

- Apply the most recent evidence-based guidelines and emerging data for the diagnosis and management of obesity as a chronic, treatable disease
- Review recent efficacy and safety outcomes of clinical trials of available and emerging anti-obesity medications (AOMs) and the implications for real-world practice
- Employ holistic care plans for patients with obesity that incorporate education and principles of shared decision-making (SDM) while avoiding the perception of stigma or bias.

#### ***Heavy Menstrual Bleeding***

***- Hilary Gaudreau, MD; Mukul Singal, MD***

An astounding 1 in 5 women with heavy menstrual bleeding may have a bleeding disorder. This presentation discusses menstruation, pregnancy, and beyond in exploring the management of women with bleeding disorders. Content also covers the importance of utilizing bleeding scores to quantify blood loss/risk stratification, management.

#### ***Our Newest Teammate: Integrating Artificial Intelligence into Family Medicine***

***- Russell Kohl, MD, FAAFP***

Upon successful completion of this lecture, the attendee will be able to:

- Briefly discuss the history of technology in medicine
- Recognize the technological basis of current artificial intelligence systems
- Identify myths, misperceptions, and limitations regarding artificial intelligence use within healthcare
- Consider potential uses of artificial intelligence within healthcare and their implications on the practice of Family Medicine

**Russell W. Kohl, MD, FAAFP**, a family physician living in Stilwell, Kansas, and member of the Oklahoma Academy of Family Physicians, is speaker of the American Academy of Family Physicians Congress of Delegates, the organization's governing body. As speaker, Kohl serves as an officer on the AAFP Board of Directors. The AAFP represents 130,000 physicians and medical students nationwide. As an AAFP board member, Kohl advocates on behalf of family physicians and patients to inspire positive change in the U.S. health care system.

Kohl is chief medical officer with TMF Health Quality Institute, a Medicare quality improvement organization serving Arkansas, Nebraska, Mississippi, Texas, Puerto Rico, and the US Virgin Islands. He currently sees patients with the non-profit Care Beyond the Boulevard, providing direct medical care to those living in homeless encampments throughout the Kansas City metro area, and is a Colonel and Chief Flight Surgeon in the Missouri Air National Guard, where he serves as the State Air Surgeon. He previously served as chief medical officer of TransforMED, ran a full-scope solo practice in rural Oklahoma and served as faculty at the University of Oklahoma School of Community Medicine.

A member of the AAFP since 1998, Kohl began his association work by serving as a student delegate to the Congress of Delegates and as student chair of the AAFP National Conference of Students and Residents. Since then, he has held numerous leadership roles, including serving on multiple commissions, as the new physician member of the AAFP Board of Directors, and as the chair of the Commission on Finance and Insurance. He held a variety of leadership positions within the Oklahoma AAFP, including 16 years on the board of directors and a term as president.

Kohl has been an active member of both the Oklahoma State Medical Association, where he served on multiple committees and as a legislative liaison, and the Texas Medical Association. As a member of the National Association of Parliamentarians, he is well versed in parliamentary procedure and its application.

Kohl earned his Bachelor of University Studies degree in fire protection and safety engineering from Oklahoma State University, Stillwater. He earned his medical degree from the University of Oklahoma College of Medicine, Oklahoma City, where he also completed his residency in family medicine.

Kohl is board certified by the American Board of Family Medicine and has the AAFP Degree of Fellow, an earned degree awarded to family physicians for distinguished service and continuing medical education.

6:00pm - 9:00pm

## Trivia Night

Enjoy dinner and an Olympics-themed Trivia Night on Saturday, July 20! You and your trivia team can test your knowledge with our friends from Hambone's during our family-friendly trivia game. Don't have a team? We'll help you create one! Come dressed as an Olympic athlete or your favorite team and capture the memories with your friends and family in our photo booth.

---

**Sunday, July 21**

**9:00am - 11:00am**

***CME Panel Discussion and Group Discussion:***

***Indiana Family Physicians & OB - What Role Can FM Play in Decreasing Maternal Mortality? (concurrent session)***

This session will start with a panel of three FM physicians practicing OB in Indiana who also provide medication assisted treatment for opioid use disorder during pregnancy. Addiction contributes significantly to maternal mortality in our state--currently ranked 47th overall. How can we increase access to this vital care? The panel will be followed by open discussion and networking regarding FMOB in general. What are the struggles of practicing OB as a family physician? How can we increase opportunities for OB in FM? Residents who may wish to practice FMOB but would like guidance on finding a job or advocating for themselves are highly encouraged to join.

**9:00am - 12:00pm**

***KSA Study Group: Behavioral Health Care (concurrent session)***

**- Bernard Richard, MD**

- Complete the 60-question Knowledge Self-Assessment (KSA) with other family physicians in a fast paced, group discussion format facilitated by a family physician experienced with the topic.
- Facilitator will guide you through all 60 questions of the Knowledge Self-Assessment (KSA) module, part of the ABFM's certification process.
- Engage in discussion and debate to help you decide on the correct answer as a group.
- Benefit from automatic reporting of your answers to the ABFM – your account will show you've successfully completed this KSA.
- Earn 8 AAFP Prescribed CME credits and 10 ABFM Certification Points following successful completion of this session.
- KSA Study Group registration is limited to enable group discussion - please register as early as possible!

**9:00am - 12:00pm**

***KSA Study Group: Heart Disease (concurrent session)***

- Complete the 60-question Knowledge Self-Assessment (KSA) with other family physicians in a fast paced, group discussion format facilitated by a family physician experienced with the topic.
- Facilitator will guide you through all 60 questions of the Knowledge Self-Assessment (KSA) module, part of the ABFM's certification process.
- Engage in discussion and debate to help you decide on the correct answer as a group.
- Benefit from automatic reporting of your answers to the ABFM – your account will show you've successfully completed this KSA.
- Earn 8 AAFP Prescribed CME credits and 10 ABFM Certification Points following successful completion of this session.
- KSA Study Group registration is limited to enable group discussion - please register as early as possible!

---

**CME SESSION CREDIT INFORMATION:** Application will be made to the American Academy of Family Physicians for 18.0 AAFP Prescribed CME credits. Determination of credit is pending. Updated credit certificates will be available on site.

**AMA/AAFP Equivalency:** AAFP Prescribed credit is accepted by the American Medical Association as equivalent to AMA PRA Category 1 credit(s)<sup>™</sup> toward the AMA Physician's Recognition Award. When applying for the AMA PRA, Prescribed credit earned must be reported as Prescribed, not as Category 1.

**DISCLAIMER:** The material presented is being made available by the Indiana Academy of Family Physicians for educational purposes only. This material is not intended to represent the only nor necessarily the best methods or procedures appropriate for the medical situations discussed, but rather is intended to present an approach, view, statement, or opinion of the faculty, which may be helpful to others who face similar situations. The IAFP disclaims any and all liability for injury or other damages resulting to any individual participating and for all claims, which may arise out of the use of the techniques, demonstrated therein by such individualism, whether these claims shall be asserted by a physician or any other person. Every effort has been made to assure the accuracy of the data presented. Physicians may care to check specific details such as drug doses and contraindications, etc., in standard sources prior to clinical application. This material may contain recommendations/guidelines developed by other organizations. Please note that although these guidelines may be included, this does not necessarily imply the endorsement of IAFP.

**CONSENT TO USE OF PHOTOGRAPHIC IMAGES:** Registration and attendance at, or participation in, IAFP meetings and other activities constitutes an agreement by the registrant for IAFP use and distribution (both now and in the future) of the registrant or attendee's image or voice in photographs, videotapes, electronic reproductions, and audiotapes of such events and activities.
